# J1501B - HP Rack System/E33

## Technical Data

**Product Number**  
**J1501B**

---

### Save valuable floor space with the vertically extendible HP Rack System/E

Designed and built to the highest HP quality standards, the Rack System/E delivers leading edge protection in the simplest form. Ease of integration, installation, and use of characterizes this 33U rack that is comprised of:

- 63% Perforated, locking rear door
- Bolt-on front/back anti-tip feet
- Numbered columns
- Fully perforated top cap
- 3-inch urethane casters
- Leveling feet

Multiple racks may be tied together to create continuous data center rack space. Individual racks may be expanded for an additional 8Us of vertical space.

### Standards

Conforms to the Electronic Industries Association (EIA) standard 310-D. It is a Type A cabinet with 33U of vertical mounting space. One 'U' is equal to 44.45 mm (1.75 in).

### Features

- Ability to move and ship fully integrated racks
- Optimized ventilation with fully perforated top, and rear door
- Extendibility can add 8Us of vertical mounting space
- Easy, bolt-on (front and back) anti-tip feet
- Numbered 12-gauge steel columns for easy installation and secure racking of up to 907 kg (2000 lbs) of equipment
- Columns include threaded inserts (AVKs) at strategic locations for quick installation of common accessories such as the tie kit, front door and PDUs.

### Shipping/Setup

- Shipping cost included in price
- Can fit through most doorways around the world
- Packaging designed for integrated rack shipment
